

Stats

in PA

In Pennsylvania there are approximately **14,000** children in foster care

Nearly **3,000** children are available for adoption today. Their parental rights have already been terminated.

Most of those children will wait **5 to 7 years** before finding a forever family.

1,100 of them will age out of the system this year with no forever family and when they do

80% of the boys will end up in jail within two years. Nearly **70%** of the girls will be pregnant and single before they reach age 21

This is not okay! Especially when there are nearly 14,000 churches (pre-covid) in the state of PA, all with the Biblical mandate to care for orphans and vulnerable children.
